

## LETTER FROM YUCATAN.

By an arrival from Sinal, the N. O. Pique has been to the 21st ult., and has also conversed with David G. Wilds, a passenger formerly an officer of the 13th U. S. Infantry, who comes to the United States empowered by the Government of Yucatan to raise troops with which to make head against the Indians. The design is to form a regiment of Americans. There are about 80 Americans now in actual service in Yucatan, and 150 more have gone thither under Captain White; but a full regiment of at least 600 men is needed. From Merida, the capital, the whites are operating in five distinct lines radiating from that centre, towards the territory in the occupation of the Indians, whose headquarters and general rendezvous is Tixtucan, a town far in the interior. In the third and fourth divisions are the Americans serving, of whom we have lately heard as being engaged with great credit to themselves.

The city of Valladolid is in the possession of the Indians. It is a place of importance and formerly of wealth. The fourth division was pushed directly upon that city, and had advanced within sight of it by the route of Izamal, Tunkias, Oixat, Tinum and Pisy.—Having reached Pisy the news of the taking of Yucatan by the Indians arrived, and the division was ordered to fall back. Its headquarters at last accounts was at Izamal, but a considerable garrison was left in Tunkias, Citas and Tenum. The last news is that the Indians were in force in the neighborhood of all these towns, and had made several attempts to carry them, but so far had failed. They are so numerous that a repulse does not dishearten them, and they are now threatening Izamal. With skillful leaders, they would overrun the whole country at once.

GEN. KERNY was buried at St. Louis on the 2d inst. with funeral honors. The military escort consisted of two regiments of U. S. Infantry, one company of Dragoons, and five volunteer companies. There was a very large concourse of friends and citizens beside.

FROM CENTRAL AMERICA.—Our advices from the city of Guatemala are of the most disastrous and deplorable kind. All government and order are at an end within the city, and without it is surrounded by the insurgents, under command of Serapio Cruz. The insurgents demand four days' sacking of the city, or one hundred thousand dollars. Fifty thousand had been offered, but it was refused, and it is feared that unless the whole amount demanded is given them, they will put their threat into execution, as there is no authority or power to prevent them.—Honduras Observer.

CALIFORNIA.—The California Star, of April 1, says that large numbers of Chinese are preparing to emigrate to that country, which is considered a favorite climate for the silk worm.

The Hillsboro (O.) stage, while coming in, to Cincinnati on the 20th ultimo, was robbed of three trunks, which the robbers cut out of the "boot."

The venerable George Washington Park Curtis addressed a meeting of the friends of Gen. Taylor in Baltimore on Friday evening.

The President has officially recognized Louis Becker as Consul ad interim of Nassau for the State of Texas, to reside at Galveston.

The Legislature of Rhode Island adjourned on Friday last, 3d inst. to meet again at Providence on the third Monday of January next.

ROBBERY.—The jewelry store of Russell & Clarke, at Woodstock, Vermont, was broken into on Monday night, and robbed of \$1,000 or 1,500 of watches, jewelry, &c. No trace of the robbers has been discovered.

994 immigrants arrived at the port of New York on Thursday the 2d inst.

On Tuesday last, by the Rev. R. A. Fisher, Jacob Trivelly, to Miss Sibilla Lerch, both from Shamokin.

On the 5th inst., by the same, D. Walmsbury, to Margaret Eiseley, all of this place.

## CHILD-BIRTH:

A valuable Scientific Work, upon the subject of Gestation and Child Birth, by R. G. Geisner, M. D., late of Paris, just published in New York.

Price Twenty-five Cents.

THIS WORK contains recently discovered information upon a subject of the highest importance to Married Persons, or those contemplating Marriage.

It will be found of special value to those whose means, health or other circumstances do not permit them to increase the number of their family without great inconvenience, suffering, or perhaps risk of life. A method of avoiding these troubles and dangers, and of preventing them, is fully communicated in this work, so that any person may avail himself of it at once, without cost. The means of prevention here set forth are therefore within the reach of all. The process is new, safe, infallible, convenient, simple, and cannot injure the health of the most delicate.

## CAUTION:

Some speculator has clandestinely (under another name) published an imitation, (bearing the same title), besides omitting the most important portions of his dupes the credulous out of

One Dollar.

For the genuine, full, and complete Work.

Copies of this work will be sent in a close envelope, single letter postage to any part of the United States, for twenty-five cents sent, post-paid, to Dr. R. G. Geisner,

305 N. B. No. 127 Liberty Street, N. Y.

2456, No. Bookellers allowed to sell this work.

November 11, 1848—5m

## Dissolution of Co-Partnership

THE subscriber hereby gives notice, that the Co-partnership entered into by the late of Messrs. Daniel B. Haas and Peter Haas, as dissolved the 14th day of February, 1848, by the withdrawal of Jacob Haas, from said co-partnership, the remaining partners agreeing to pay all just debts of the firm of Haas & Co.

JACOB HAAS.

Shamokin, Pa., Oct. 28, 1848—

## Notice.

THE undersigned, appointed by the Orphan's Court of Northumberland County, to make distribution to and among the heirs and legal representatives of Thomas Grant, deceased; hereby notifies all persons interested in said matter, that he will attend to the duties of his appointment on Saturday, the 4th of November, at his office in the borough of Sunbury.

CHARLES J. BRUNER, Auditor.

Sunbury, Oct. 28, 1848.

## J. J. GREENOUGH.

(Late Keller & Greenough.)

PATENT ATTORNEY.

AND MECHANICAL ENGINEER.

Washington, D. C.

DRAWINGS and papers for the Patent Office, prepared and all the necessary business, in relation to securing patents, transacted, and promptly attended to, at their office opposite the Patent Office.

October 28, 1848.

## I. ANDREWS, DEATH TO PAIN.

—RELAY TO THE SICK—

Health to the Weak—

BALE in found for the

Whole Human Race in Aus-

PAIN KILLER.

This is an entirely vegeta-

ble and pure, and of proved

Twenty-five different ingredi-

ents, and is an internal and

External Remedy for the

various kinds of human flesh is

its

COUGHS, COLIC, PAIN, NERVOUS AND SICK HEADACHE,

RHEUMATISM, COLIC, SPASMS, SPINAL AFFECTIONS, SUMMER

COMPLAINT, CHOLERA, COLIC, ERUPTIONS, CORN,

PILES, FROZEN BURNS, SCALDS, AGUE IN THE FACE AND

STOMACH, HAY FEVER, BRUISES, BURNS, AND ALL THE

various kinds of human flesh is its

LOOK OUT FOR FRAUD.

The triumph of Andrew's Pain Killer in removing

the causes that produce death, the untimely death

of millions of our race, has induced some persons to

may be truly said, their villainous occupation monitor

their village, to attempt to cut in circulation, and use

and counterfeit articles called "Pain Killer," using fictitious

names for the pretended author, forged certificates, &c.

Some have appeared, and others are to appear. Let

the public be warned, and let them know that the

signature of I. Andrews, in the label of each bottle

of Andrew's Pain Killer, is the only one that is

of Andrew's Pain Killer, and have no fear.

## Patent Air-Tight

SUMMER AND WINTER COOKING

STOVES.

THE above Stove, which is equally well adapted to Wood

and Coal, has received silver medals at the fairs of the

American Institute, New York, of the Mechanics' Insti-

tute, Boston, of the Franklin Institute, Philadelphia; and

of the Massachusetts Institute, Lowell, Mass. It is

capable, if properly used, of doing more work, with

less fuel, than any other stove yet offered to the public; in

winter it will warm the largest kitchen, while in summer,

with the summer doors closed, it throws out no more

heat than the smallest of stoves; and for boiling, broiling,

roasting, or cooking, it cannot be surpassed by any other stove,

open fire, or brick oven.

RECOMMENDATIONS.

CERTIFICATE OF THE JUDGES OF THE MECHANICS' INSTI-

TUTE, BOSTON.

We, the subscribers, being judges of the Mechanics' Insti-

tute, Boston, have examined the Patent Air-Tight Stove,

and find it to be a most valuable and useful article, and

one that will do more work, with less fuel, than any other

stove yet offered to the public; and we recommend it to the

public, as one of the most valuable and useful articles of the

kind, and one that will do more work, with less fuel, than

any other stove yet offered to the public; and we recom-

mend it to the public, as one of the most valuable and

useful articles of the kind, and one that will do more

work, with less fuel, than any other stove yet offered to

the public; and we recommend it to the public, as one of

the most valuable and useful articles of the kind, and one

that will do more work, with less fuel, than any other

stove yet offered to the public; and we recommend it to

the public, as one of the most valuable and useful arti-

cles of the kind, and one that will do more work, with

less fuel, than any other stove yet offered to the public;

and we recommend it to the public, as one of the most

valuable and useful articles of the kind, and one that

will do more work, with less fuel, than any other stove

yet offered to the public; and we recommend it to the

public, as one of the most valuable and useful articles of

the kind, and one that will do more work, with less

fuel, than any other stove yet offered to the public; and
